“

Page One has been a great business partner and has filled the firm’s eDiscovery needs. Their pricing is competitive, **but most importantly, they are easy to work with, and their responsiveness is exceptional.** I would highly recommend Page One to any law firm to assist with their eDiscovery needs.

Chief Financial Officer & Director of Administration, Graydon

Page One’s team and technology saved us immense amounts of time and effort in reviewing a large document production in a recent mass tort case. **Brainspace was especially helpful in giving us an idea of what was, and wasn’t, in the production without spending a large amount of time on review.** This allowed us to quickly make additional, targeted document requests.

Attorney, Cory Watson
